Muhammad Safian

MERN Stack Developer

+923114545210 ◇ meharsafian62@gmail.com ◇ Lahore, Punjab, Pakistan ◇ GitHub ◇ LinkedIn ◇ Portfolio

SUMMARY

MERN Stack Developer with 1 year of hands-on project experience building modern **full-stack web applications** using **React.js**, **Next.js**, **Node.js**, **Express.js**, and **MongoDB**. Experienced in developing responsive user interfaces, **REST APIs, authentication** systems, and **role-based access control** through real-world projects. Passionate about writing **clean**, **maintainable** code, learning modern technologies, and building user-friendly applications.

EXPERIENCE

MERN Stack Developer Jun '25 — Present
NextHome Lahore

- Contributed to the development of the **APPNA Academy Portal**, an education management platform for managing **CME, Non-CME**, and educational activities through role-based workflows.
- Developed responsive interfaces using **React.js and Tailwind Css**, ensuring smooth experience across different devices.
- Implemented **reusable** React components and **modular UI architecture** to improve code maintainability and development efficiency.
- Developed **RESTful API** modules using **Nest.js,** and **PostgreSQL** for authentication, application management, and workflow automation.
- Developed dynamic multi-step application forms with comprehensive validation, reducing invalid submissions and improving data integrity.
- Created dedicated dashboards for multiple user roles with conditional rendering, status tracking, and action-based interfaces to improve operational efficiency.

PROJECTS

APPNA Academy Portal Link

- Developing an enterprise application to manage **CME**, **Non-CME**, Combined, and NOC educational workflows through a centralized portal.
- Built responsive interfaces using **React.js and Tailwind Css**, ensuring smooth experience across devices.
- Implemented secure **authentication**, protected routes, and **role-based** user interfaces with JWT and RBAC.

Multi-Vendor E-Commerce Platform Link

- Developed a **full-stack multi-vendor e-commerce platform** using **React**, **Node.js, Express**, and **MongoDB**, enabling buyers to shop, sellers to manage stores, and admins to oversee operations.
- Built **role-based dashboards** for admins, sellers, and buyers with **secure JWT authentication**, session management, and access control for each user type.
- Integrated **Stripe payment gateway** and implemented **real-time communication** using **Socket.io**.

Learning Management System (LMS) Link

- Developed a full-stack LMS application with **Next.js, TypeScript, Node.js, Redis, MongoDB, and Socket.io**, featuring responsive UI and scalable backend
- Designed **secure course enrollment, JWT authentication, and role-based access** for students and admins.
- Integrated **Stripe gateway** for checkout and used **Redis caching** to improve data retrieval and boost load performance.
- Implemented **real-time notifications** and live updates using **Socket.io** to enhance user engagement and interactive learning experience.

SKILLS

Frontend React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, Redux, Redux Toolkit, TanStack Query, Shadcn/UI
Backend Node.js, Express.js, Nest.js, REST APIs, RBAC, Prisma, JWT, OAuth, Authentication, Authorization
Databases MongoDB, PostgreSQl, Redis
Tools Git, Github, Postman, Vercel, Render
Others Stripe, Socket.io
Languages English

EDUCATION

Bachelor of Computer Science, Virtual University of Pakistan
